Summary

After learning 4 levels at Little UK, I have realized how I love this educational program and its spirit. Thanks to this, I can understand the importance of all the skills which LUK lectures taught me. Therefore, I want to be a part of Little UK. I wish I am able to dedicate my enthusiasm and apply all the skills I have learned in order to help the next generation of LUK students. I wish I can support these students learning in an effective way for opening the door leading to Global Citizen. I believe with the spirit "Love learning - Big vision - Face challenges" nothing is impossible.

Education

Little UK Saigon

Completed 4 level

Nov 2020 - July 2021

FPT University

Software Engineering

Sep 2020 - Present
